### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Glenn Massina on 9/16/05.

The application has been amended as follows:

- In line 2 of claims 35 and 36 the phrase "the return channel" has been changed to --the wheel pressure channel-- to properly correspond to the drawings and the specification;
- In line 4 of claim 35 the phrase "the wheel brake port" has been changed to --the at least one wheel brake port--.

2. The following is an examiner's statement of reasons for allowance: the Dinkel et al. prior art reference fails to show or suggest the limitation of the pump-accommodating bore being arranged in the accommodating member generally parallel to and between the first and second rows of valve-accommodating bores as recited in each of the independent claims. As shown in figure 2 of Dinkel (see figure 2 of US Patent 6688707) the pump-accommodating bore 3 is arranged generally perpendicular to the first and second rows of valve-accommodating bores which include the row extending along the axis of left element THZ and the row extending along the axis of element VL, respectively. Accordingly, claims 25-37 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melody M. Burch whose telephone number is 571-272-7114. The examiner can normally be reached on Monday-Friday (6:30 AM-3:00 PM).
